December 10, 2019

Dear Jonathan,

Thank you for participating in the Rutgers MBS Externship Exchange program. Students in the summer and fall 2019 semesters truly enjoyed working on the Autism Directory project. Students learned a great deal and honed many hard and soft skills. It is so admirable that the goal of the directory is to improve the lives of families struggling with personal and financial issues.

Our students are thrilled, and have been gaining an invaluable experience including leadership, marketing, team collaboration, communication, technology, psychology, and business coaching. Skill building along with the unique experience will forever be with them in their careers.

Keller Williams Real Places has been an exceptional partner to the Rutgers Master of Business and Science (MBS) degree program, and we hope to continue and expand our partnership in 2020.

Wishing you a safe and happy holiday.

Sincerely,

Abbe Lynn Rosenthal
